Grand Prairie, TX 75058

Re: Tristar Glass  
Grand Prairie Facility - Qualified Fabricator

Mr. Rome,

During my recent audit and testing at your facility, Tristar Glass demonstrated a high level of proficiency in the fabrication of AGC's coated low emissivity glasses. The cutting, tempering and insulating departments appear to fully understand the requirements of fabricating coated products.

Tristar Grand Prairie's certifications in good standing with the SGCC (Safety Glazing Certification Council) and the IGCC (Insulating Glass Certification Council) further demonstrate Tristar's commitment to producing a quality product for their customers.

AGC Glass North America considers Tristar Grand Prairie qualified to fabricate AGC's Energy Select and Stopray Vision high performance coated glass products for commercial glazing applications.<sup>1</sup>

<b>AGC Coating Family</b>	<b>AGC Coatings</b>
Energy Select	ES-63, ESR-42, ES-40, ES-36, ES-31, ES-28, ES-25, ES-23 and ES-20
Stopray Vision	SRV 50T and SRV 36T
