Oklahoma City, OK 73119

Dear Angel Bravo:

This letter confirms that Tristar Glass, as of February 27, 2018, has met the criteria for re-certification as a Guardian Select® Fabricator for the coated glass products listed below:

Product Category	Products Covered by Certification
SuperNeutral®	SuperNeutral 54 & 54 HT, SuperNeutral 68 & 68 HT, SNX 51/23 & 51/23 HT, SNX 62/27 & 62/27 HT, SNR 43 HT
High Performance	Neutral 78/65, Neutral 40, Neutral 50, Neutral 61 HT, AG 50, AG 43
Solar	Silver 20
Other	SunGuard® IS-20 HT and Guardian Neutral 70

Guardian's certification process and program requirements have been designed to assess our customer's ability to consistently fabricate quality coated products. We have attached a copy of the certification report for your review. This certification is valid for twelve months. This letter may be submitted as required by architectural specifications as evidence of fabricator certification for processing SunGuard® and other coated products in accordance with Guardian's standards.

It is important to note that all or part of the insulating glass manufacturing process at your facility is completed with the glass positioned horizontally, which carries an inherent risk of reflected distortion if the process is not performed properly. Guidelines for successfully producing insulating glass units in the horizontal position are contained in the SunGuard Fabricator User's Guide, Section 12.1 through 12.6 and in the Product Application Note "Insulating Glass Guidelines", Section 21.

Congratulations on re-certification as a Guardian Select Fabricator! We look forward to continued success with Tristar Glass in the high performance commercial glass market.

Best Regards,

Richard Hall
